### University Night-O Report by Wolfsong

Lotsa fun at the University campus last night, Friday, April 29 where we held our second in a series of weekday night-O's. Eighteen controls were tucked into secret locations unlocked by the possession of a map which was passed out just before the 8:00 PM mass start. Participants scattered in 3 different directions at the GO signal and had 45 minutes to get as many controls as possible. Instead of hills for obstacles, there were buildings. Two participants overcame all obstacles and garnished perfect scores but many were close behind in the attempt to get them all. Everyone returned on time with team "**It's All You**" having the most fun by staying out for all but 22 seconds of the allowed time.

Unfortunately we did not receive the permit in timely fashion so couldn't publicize the event as well as we would have liked. This certainly hampered attendance. Thanks to those who came in spite of the uncertainty and a special thanks to the **Sahuarita ROTC** crew of six who took part.

Volunteering to help out with this event were **Helen Deluga** with registration and **Ludwig Hill** with Ocad instruction. Control retrievers were **Alyssa and John** (team "It's All You"), **Mark Everett**, and **Ludwig Hill**. Thanks for making the job of putting these on flow smoothly.

#### Individual Results

	<u>Points</u>	<u>Time</u>
1. Mark Everett	1800	29:00
2. Ludwig Hill	1800	38:05
3. Jeff Brucker	1600	41:50
4. Don Fallis	1500	40:20
5. Walter Pickett	900	44:30

#### Team Results

1. Team Blutu	1500	40:50
2. It's All You	1400	44:38
3. White Smores	800	39:30
