

MOTALA TIMER'S INSTRUCTIONS

Before entering the person onto the timing log sheet:

- Make sure ALL THREE scorecards are fully filled out with full name and exact course ("R", "O", and "Y".... not "Motala").
- Have them hang the 2nd and 3rd course scorecards and maps on the clothesline so that they can easily retrieve them later.
- If they do not have the three scorecards filled out, give them a pen and they go back to the end of the line.

When entering on the timing log sheet:

- Use three consecutive lines, (You must use three lines because it is important to get their split times for each of their courses.)
- Write their name on ONLY the 1st line.
- Write dittos for the name on the 2nd and 3rd lines.
- Write the exact course ("R", "O", and "Y".... not "Motala") in correct order on the three lines.
- Write the 1st start time on the log sheet 1st line.
- Write the 1st start time on the first scorecard.
- Give them their 1st map.
- Send them on their way.

When the person returns from the 1st course:

- Quickly write their time on the 1st scorecard "finish".
- Temporarily set aside the 1st course scorecard.
- They are now officially on the 2nd course. They may pick up their 2nd map and scorecard and leave at any time.
- *(They may pause as long as they wish between courses, but they are on the clock while pausing. They do not need to check back with you.)*
- After they are gone, transpose onto the logsheet their 1st finish time and their 2nd start time (which is the exact same time) before putting their 1st card into the finished stack.

When the person returns from the 2nd course:

- Do the same as when they finished the 1st course, except....
- Also write their 2nd start time on their 2nd card before putting it into the finished stack.

When the person finishes the 3rd course

- They are treated like any other finisher, except....
- Also write their 3rd start time on their 3rd card before putting it into the finished stack.
