Cat Mountain Results -- 12/20/09

- [Print](#)

Details

December 20th was a beautiful, if somewhat breezy, morning for tackling the classic courses set by Cristina Luis. White, Yellow, Orange, Brown and Red were offered, with the Motala available for the ambitious people. Thanks Cristina for some wonderful courses, as well as to Melissa Trout and Peg Davis, who helped hang controls. Melissa Trout and Caitlin Harrison also assisted with the timing/downloading table. Yvonne Poe gave the beginner's clinic (and is very relieved no one got lost).

Helping gather up controls at the conclusion of the fun were Glenn Haselfeld, Mike Wilke, Mark Parsons, the Klell family, Ludwig Hill and the Poes. Thank you everyone for your help and to Max Suter for the yummy tangerines!

The Cat Mountain map, the courses, and routes used by some of the competitors can now be seen at [TOC's RouteGadget site](#).

The results listed below include only elapsed time. If you'd like to compare your splits with others then please see the Attackpoint listing for the [Cat Mountain](#) event. An Attackpoint account is free, and once you have one you can enter in your splits, enter in comments for each leg, discuss the course, and log your training.

Hope to see you all at the Ironwood event!
