What a beautiful day in the Catalinas! Twenty-one orienteers ignored the threat of rain and were rewarded with perfect weather for running the three courses set by **Jeff Coker** with the help of his wife, **Nancy**. Thanks to both of you for your hard work.

One competitor described the long course as "diabolical," and apparently the medium course was also challenging, with second-place team Lost in the Woods (**Mike Cagle** and **Diane James**) out for more than three hours. Amazingly enough, they still volunteered to retrieve a couple tricky controls on their way down the mountain. Thank you!

Thanks also to meet directors **Mike and Valery Thompson**, who did all the preliminary work and also helped with registration, timing, scoring and control retrieval; **Nancy Coker**, for hanging the last controls and putting water on the course Sunday morning; **GeeGee Larrington**, who was great company and organized and helped with control retrieval; and **John Pascal**, who also helped retrieve controls.

I had a great time working registration and timing, and getting to know a few club members. I'm also glad I had the chance to retrieve a few controls myself and take in the glorious views.

Hope to see you all again next year.
