## Box Canyon Results -- 2/19-20/11

- [Print](#)

Conditions were a bit breezy with chances for rain, which fortunately never came, for the two day event at Box Canyon. The meet consisted of Saturday courses, laid out by **Leif Lundquist**, that were mostly on the western half of the Box Canyon map. **Art Cantrell** set the Sunday courses which were on the eastern portion of the map with some controls overlapping into Saturday's area. The courses were a bit shorter for Saturday due to the more varied terrain on the western half of the map, but the time it took to run each day's courses was pretty even.

We had quite a group of runners representing many parts of the country from Los Angeles to New York and lots of places in between. We even had **Graham Ereaux**, a visitor from Canada, stumble into our meet as he was backpacking the Arizona trail, and decide to run the blue course for Saturday. **Becky Carlyle** came from New Haven, Connecticut and indirectly from England to enjoy the unfamiliar terrain.

People enjoyed the courses and maps for both days and feedback was positive. The exceptional orienteering skills of **Ludwig Hill** were recognized, when, after everyone else had finished the Sunday red course, he found that two controls on the course slightly off from the locations on the maps. (Leif was able to confirm this with his GPS after the courses were closed.)

Special thanks goes to all those who volunteered to make the meet a success. The volunteers for Saturday included **Leif Lundquist** as the course setter, **Sue Wenberg** as the meet director, and **Helen Deluga** who stopped by to volunteer. Special thanks goes to **Jeff Brucker** for picking up the equipment from the locker and then setting up with friend **Mike Cagle**. **Glenn Haselfeld** from GPHXO offered to help put out the Sunday controls and is applauded for his ingenuity in hanging flags. The control retrieval for Saturday was accomplished by **Ludwig Hill**, **Ron and Kathy Birks**, **Mark Parsons**, **Leif Lundquist** and **Art Cantrell**. Sunday's volunteers included **Art Cantrell** for setting courses and **Kelly Morales** for directing the meet. Control retrieval was made possible with the help of **John Maier**, **Mark Everett**, **David Rohklin**, **Leif Lundquist**, **Ludwig Hill** and **Art Cantrell**. Thanks to all for putting on another successful event!

Results for both days are listed below. Also, split times for both days are listed on the [Day 1 Splits](#) and [Day 2 Splits](#) pages.

To draw your route and compare with others, see [RouteGadget](#). Currently the following courses have been entered into RouteGadget: Red (Sat.), Blue (Sat.), and Red (Sun.). Other courses can be added [by request](#).
