Greasewood Park Early-O Results -- 5/16/21

- [Print](#)

Details

Written by Cristina Luis

Orienteering in the desert in May? Sure! Just start before it gets hot. We had 18 early birds at Greasewood Park, running either a score course or a special dogbones alternative. The dogbones are meant to add a bit more challenge and distance. You can see both maps (and maybe people's routes, if they upload them) on [Livelox](#).

Four individuals/teams tried the dogbones course, which was easily won by new Tucson club member **Alan Craig**. We had 13 runners on the regular score course, including five Sahuarita JROTC team members and four runners from [The Workout Group](#). The top male runner was **Julian Alamazon** and the top woman was **Heather McLean**. The youngest participant was **Lukas Luis** (age 5).

We had 7 people volunteer for control retrieval, making it very quick indeed. Thanks to Alan, Dylan, Jason, Joe, Joan, Jennifer, and Anna!

Extra thanks to **Jeff Brucker** for very early morning help setting out the controls!

Dogbones		7 Bones total	1 hour limit
Name	Club	Bones	Time
Alan Craig	TSN	7	49:09
Team Dylan and Jason		7	59:56
Donald Traicoff	TSN	4	49:30
