

CONTROL MARKER CARD GUIDELINES

BOTH CARDS

- Print on heavy duty card stock. Print two cards and place back to back inside lamination so it is opaque .
- Lamination should extend approximately 3/4" past edge of card on all four sides so water doesn't leak in.
- Make sure punched holes are in the laminated border well outside edge of card so it doesn't leak.
- Round off corners of lamination with scissors which makes it less susceptible to separating.

CODE CARDS

- Font: Arial Black and Bold Font Size: 120 (anything bigger than this is unnecessary)
- Dimensions of card: 2" high by 2-1/2" wide (15 per sheet) ("M" will be a bit wider, "I" narrower.)
- Dimensions of Lamination: 3-13/16" high by 4-1/4" wide (6 per sheet)
- Punch two holes, one on top and one on bottom for cord.

DO NOT REMOVE CARDS
